

Ten years from now,

What should come **next**?

Explore the forces shaping the next ten years and make a clear case for what should come next. Choose one question. Research it. Argue for it in up to 1,000 words.

ENTERPRISE & INNOVATION

What problem will matter much more ten years from now, and what would you create to address it?

SCIENCE & TECHNOLOGY

What scientific or technological development could most improve life by 2037, and what needs to happen to make it possible?

SOCIETY & HUMANITY

What should society change today to create a better world ten years from now?
